BUDGET IMPACT: Approximately \$490 (manpower and materials) for test site implementation.

☒ Annual **FUNDING SOURCE:** County Transportation Trust
☐ Capital **EXPENDITURE ACCOUNT:** 103-340-541- Various
☐ N/A

HISTORY/FACTS/ISSUES:

Attached is a letter from Mr. Charles Cook requesting the County install test roundabout signage at the Savannah Center traffic circle. A drawing of the proposed 30" by 36" test sign is attached as well. The proposed sign meets state and federal guidelines for roundabout directional signs. The cost to Sumter County per sign for materials and production, for the test site is approximately \$70, or \$490 for seven signs. There are existing directional signs at all roundabouts in the Villages, although they are not all the same exact sign. Mr. Sam Wartinbee, Villages staff, has agreed to install the signs if the County will produce and deliver them to the site. It is further recommended that the Villages personnel conduct a designed survey to obtain feedback from citizens as to the effectiveness of the new test signs.
